Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 30 November 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-6, 8-10, 16, 22, 24-26, 28 are rejected under 35 U.S.C. 102(b) as being anticipated by Nobileau (US 5,794,702).

Nobileau discloses a method of casing a wellbore which comprises all of the apparatus and steps of using the same including running a corrugated deformed tubular 15 (Figs 5-7, col. 3, lines 59+), the steps of reforming the tubular and expanding at least a portion of the reformed tubular body are anticipated by col. 7, lines 36-63, where piston operated ball expander opens the casing from collapsed folded configuration of Fig. 9 to a cylindrical configuration of Fig. 10. The step of reforming the tubular body by enlarging a smallest inner diameter to an inner diameter as large as the original tubular body is anticipated by the fact that the tubular is being expanded from its smallest diameter of Fig. 9, to its original tubular body of Fig. 10. The step of expanding a portion of the tubular body past its elastic limit is anticipated by Fig. 12 and col. 8, lines 28+, where the tubular portion at 15c is clearly being expanded past its elastic limit, since it is a well known physical principle that a plastic deformation can only occur when the tubular is expanded beyond its elastic limit (also see Applied Drilling

Engineering, page 428, second paragraph). The restricted inner diameter portion is anticipated by the inner diameter of the cased section 11.

Allowable Subject Matter

Claims 17-21, 23, 27 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 29-56 are allowed.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

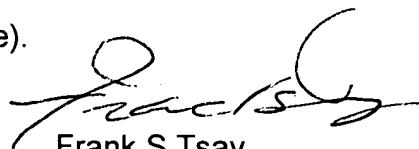

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
